## MEMO

### UNIVERSAL AND PLUG-IN RECEIVERS

## 4 Reasons to choose RX4, RXI23 and RXM23:

1. Range improvement
2. Possibility to memorize receiver with pre-set remote control
3. Automatic setting for fixed/rolling code
4. Up to 1000 codes memorization

#### RX4

4 channels plug-in receiver, fix code or rolling code, for control boards CT102, CT202 e 14A

#### RXI23

2 channels plug-in receiver, fix code or rolling code for control boards 824S e 724S

#### RXM23

2 channels universal receiver, external, fix code or rolling code

CODE	DESCRIPTION
RX4	4 channels plug-in receiver, fix or rolling code, 200 codes
RX4K	4 channels plug-in receiver, fix or rolling code, 1000 codes
RXI23	2 channels plug-in receiver, fix or rolling code, 200 codes
RXM23	2 channels universal receiver, external, fix or rolling code, 200 codes. In box

TECHNICAL DATA		RX4/RX4K	RXI23	RXM23
reception frequency	MHz	433,920	433,920	433,920
power	Vac / (Vdc)	-	(24)	12 / (24)
idle consumption	m A	12	12	12
sensitivity	dBm	-109	-109	-109
relay contacts max suply	A	-	1	1
relay contacts max voltage	Vdc	-	24	24
operating temperature	°C	-20°+55°	-20° + 55°	-20° + 55°
